

**Amendments to the Drawings:**

The attached twelve (12) sheets of replacement drawings include a change to FIG. 1C, which has been corrected to add missing reference number 20. These sheets replace all of the original sheets.

Attachment: Replacement Sheets (12)

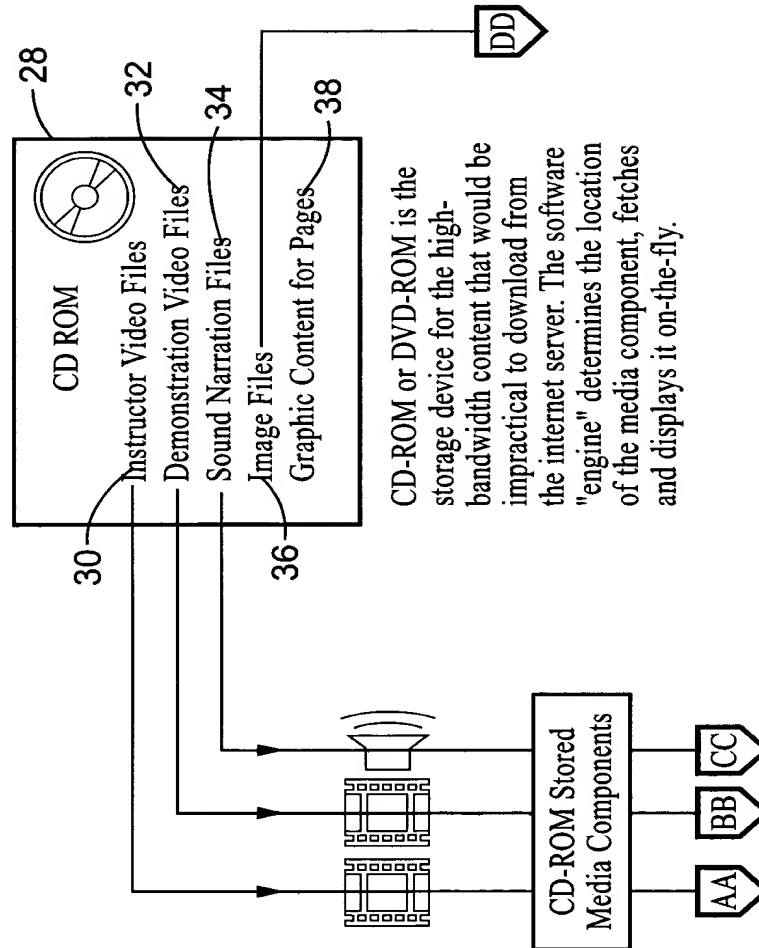

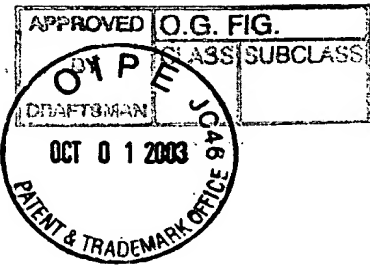

FIG. 1A

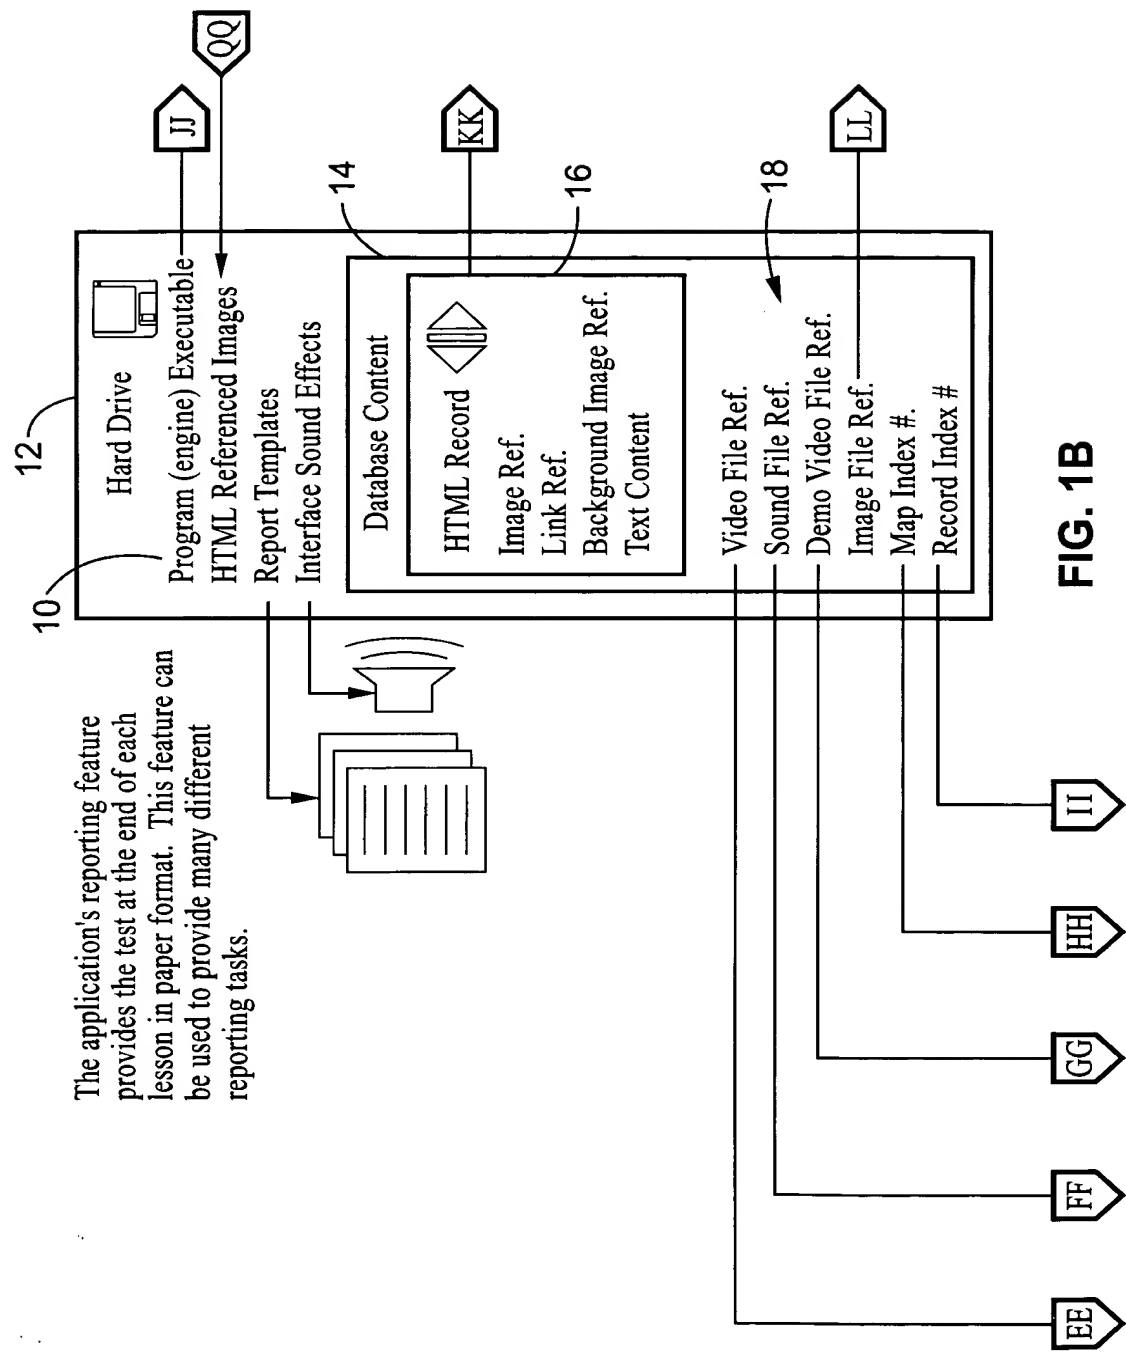

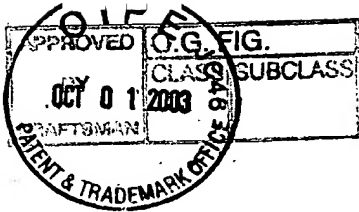

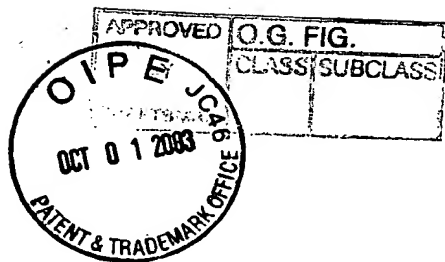

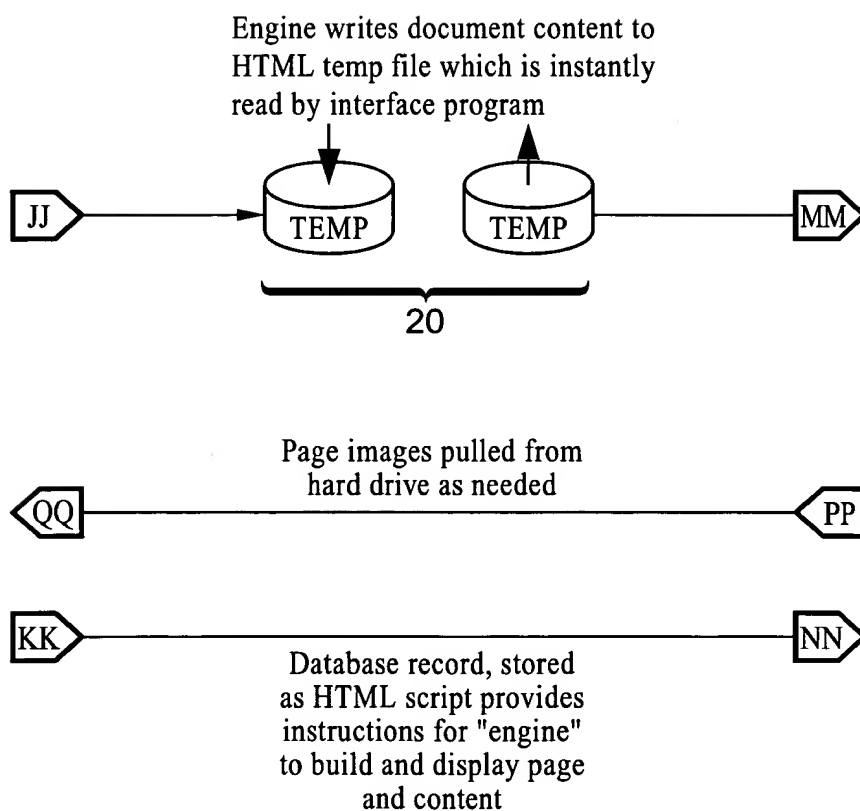

FIG. 1B

The application's reporting feature provides the test at the end of each lesson in paper format. This feature can be used to provide many different reporting tasks.

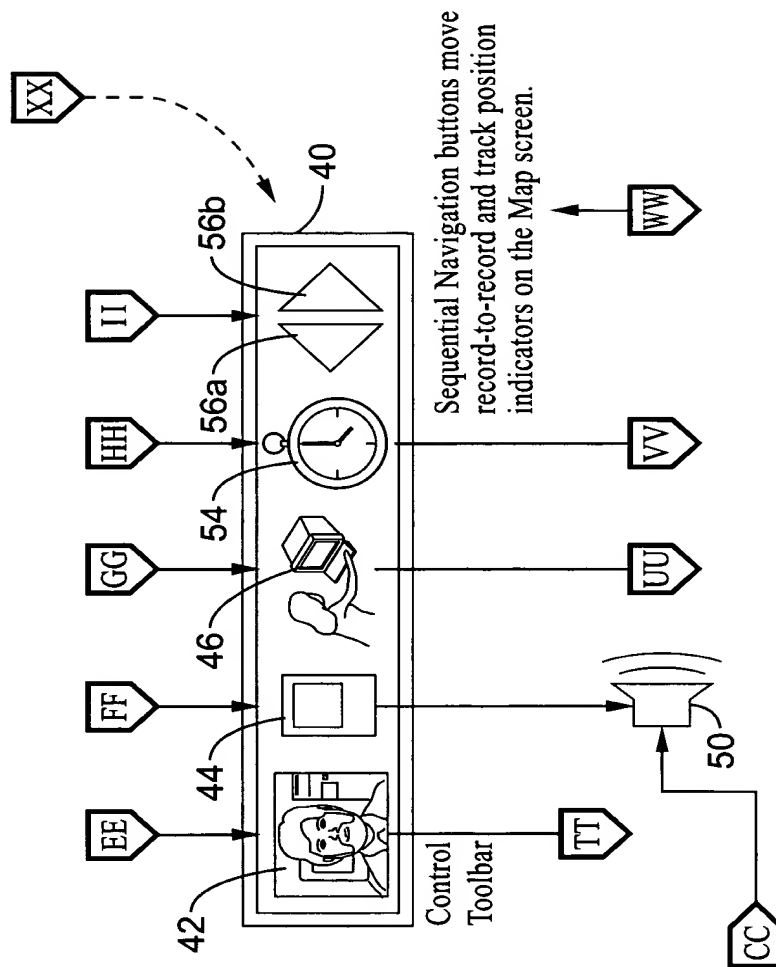

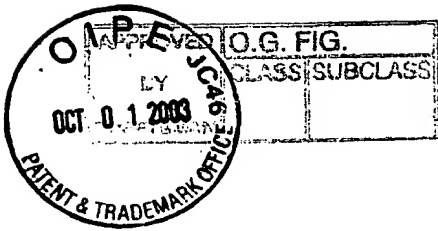

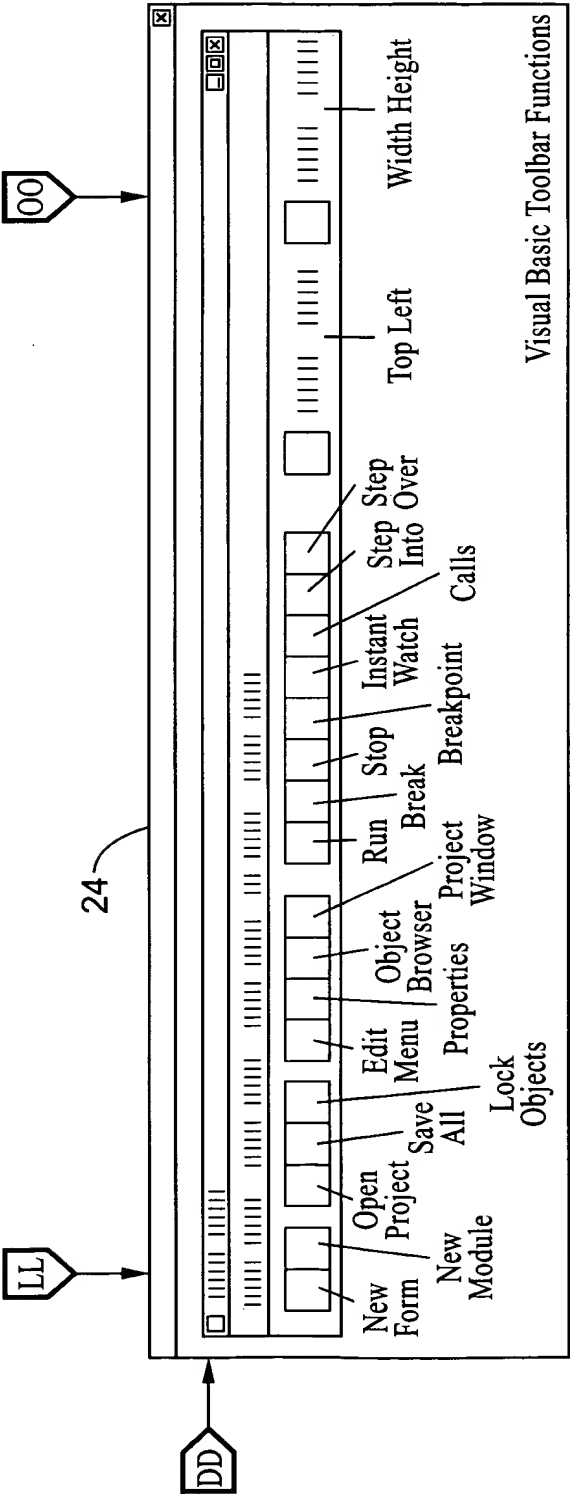

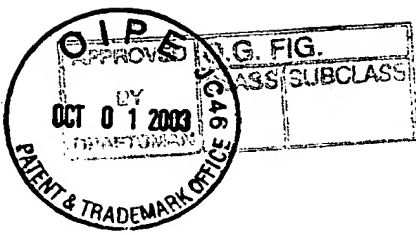

FIG. 1E

Instructor Video, Narration or Demonstration buttons appear only when that media component is referenced in the database. "Engine" determines component presence and file location, and then presents component requested by clicking the visible button.

Images too large to comfortably fit in the main screen at normal width can be stored in the "engines's" database and displayed in this illustration window
